

MOHAMMED ZAID SHAIKH

Full Stack Developer — SaaS, AI Applications & Enterprise Systems

Surat, Gujarat, India | zaidshaikh8158@gmail.com | +91 8200373901 | linkedin.com/in/zaid-shaikh-391aa1138

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of professional experience designing, developing, and deploying scalable SaaS platforms, enterprise applications, AI-powered products, and multi-tenant management systems. Experienced in building modern web applications using React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, and cloud-native architectures. Proven ability to lead end-to-end software development, architect scalable solutions, integrate third-party APIs, and deliver high-performance applications used across multiple industries. Strong expertise in AI integrations, Retrieval-Augmented Generation (RAG), OpenAI & Claude APIs, payment systems, authentication, real-time communication, workflow automation, and enterprise-grade backend systems.

CORE COMPETENCIES

Full Stack Development ▪ SaaS Product Development ▪ AI Application Development ▪ Enterprise Software ▪ REST API Design ▪ Database Architecture ▪ Authentication & Authorization ▪ Payment Gateway Integration ▪ Team Leadership ▪ Software Architecture

EDUCATION

MIT World Peace University (MIT-WPU) 2019 – 2021

Master of Science (M.Sc.) – Computer Science | CGPA: 9.54 / 10

Uka Tarsadia University 2016 – 2019

Bachelor of Science (B.Sc.) – Information Technology | CGPA: 8.02 / 10

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer July 2025 – Present

- Develop and maintain scalable SaaS, AI-powered, and enterprise-grade web applications for international clients.
- Architect modern frontend and backend solutions using React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma.
- Build AI-powered applications integrating OpenAI, Claude, Firecrawl, Vector Embeddings, and Retrieval-Augmented Generation (RAG).
- Deliver complete software solutions including multi-tenant systems, workflow automation, payment integrations, and real-time communication platforms.
- Collaborate directly with clients to gather business requirements, design technical architecture, and deliver production-ready applications.
- Manage project planning, development, deployment, maintenance, and ongoing client support.

Full Stack Developer | Prism IT Systems November 2020 – June 2025

- Started as a MERN Stack Intern and progressed to Full Stack Developer.
- Developed and maintained 10+ production-ready SaaS and enterprise applications.
- Led frontend and backend development using React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma.
- Integrated Stripe, Twilio, Auth0, WhatsApp APIs, shipping providers, and AI services.
- Collaborated with cross-functional teams to deliver secure, scalable, and maintainable software solutions.
- Mentored junior developers, participated in architecture discussions, code reviews, and deployment processes.

FEATURED PROJECTS

Mextodo — mextodo.com

- Multi-country e-commerce platform (customers, vendors, admins) across Mexico, Canada, and the US.
- Built vendor and customer management systems; implemented product management and order processing workflows.
- Developed shipping integrations using Envia and integrated Stripe payment gateway.
- Built scalable backend APIs and admin management tools.

Stack: React.js, Vite.js, TypeScript, Material UI, Node.js, Express.js, Prisma, PostgreSQL, Stripe

MexSalon — mexsalon.com

- Multi-tenant salon management platform for Super Admins, Salon Owners, Staff, and Customers.
- Developed subscription-based salon management with appointment scheduling and booking workflows.
- Built payroll, commissions, loyalty programs, and employee management; integrated WhatsApp messaging.
- Designed package management and reporting dashboards.

Stack: React.js, TypeScript, Radix UI, Node.js, Express.js, PostgreSQL, Prisma

Controlcian — controlcian.com

- Correctional facility communication platform enabling secure inmate-family communication.
- Developed multi-role portals with messaging, voice calls, and video communication.
- Built digital wallet and credit system with administrator approval workflows.
- Integrated Twilio Voice SDK for real-time communication.

Stack: React.js, TypeScript, Prisma, PostgreSQL, Twilio Voice SDK

CoreOperative AI — portal.coreoperative.ai

- Enterprise AI automation platform providing business assistants and intelligent workflows.
- Integrated OpenAI and Anthropic Claude APIs; built AI-powered chat agents.
- Implemented website intelligence using Firecrawl and Brave Search; designed RAG architecture using OpenAI Embeddings.
- Developed backend orchestration for prompts and AI workflows.

Stack: Next.js, TypeScript, Node.js, Express.js, PostgreSQL, OpenAI, Claude, Firecrawl, Supabase

InsightFlow — knowledge.insightflow.io

- Research asset management & monetization platform.
- Built subscription-based access management and premium asset distribution workflows.
- Implemented secure authorization mechanisms.

Stack: Next.js, TypeScript, SCSS, Node.js, Koa, PostgreSQL

Travelin AI — travelin.ai

- AI-powered travel planning and booking platform.
- Built flight and hotel booking workflows and travel itinerary management.
- Designed responsive frontend and backend architecture.

Stack: Next.js, Node.js, MongoDB

PAWSCRm — pawscrm.com

- Enterprise CRM processing datasets larger than 5GB.
- Built high-volume CSV import engine with validation and approval workflows.
- Automated email verification pipelines; integrated MailWizz subscriber management.

Stack: Next.js, Node.js, PostgreSQL, Knex

PitPlay — pitplay.in

- Sports facility booking and management platform.
- Built ground management, booking system, and analytics dashboards.
- Designed and developed REST APIs.

Stack: Next.js, Node.js, PostgreSQL, Prisma

Digimen — digimen.co.in

- Digital business card and website builder platform.
- Built customizable business websites with theme customization features.
- Implemented social media integrations.

Stack: Next.js, CodeIgniter, Material UI

WMLK Radio / Comenity / GrowthX

- Media broadcasting, financial services, and digital marketing platforms.
- Built reusable components, financial calculators, and responsive marketing sites.
- Integrated WordPress CMS and improved frontend UX across projects.

Stack: React.js, TypeScript, WordPress, PHP

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vue.js, Nuxt.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Radix UI

Backend: Node.js, Express.js, NestJS, Koa, REST APIs, GraphQL

Databases: PostgreSQL, MySQL, MongoDB, Supabase, Redis

ORM / Data Access: Prisma, TypeORM, Knex

Cloud, AI & Integrations: OpenAI API, Anthropic Claude API, Firecrawl API, Brave Search API, Twilio, Stripe, Auth0, Envia

CMS & Tools: WordPress, CodeIgniter, Git & GitHub, Agile Development

Architecture: SaaS Architecture, Multi-Tenant Systems, Retrieval-Augmented Generation (RAG), AI Integrations
